## SHERIFF'S CHILD DIES FROM FRIGHT OF MOB

(By Associated Press.)

LIMA, Ohio, Sept. 1.—Sheriff Sherman Ely, victim of an enraged mob, had added to his tortures the pangs of an aching heart, when, upon his return home today, he learned that his little daughter had died from shock, caused Wednesday night when the mob forced its way into the jail, seeking the life of Chas. Daniels, a negro.

Mrs. Cecil Kephart, Mrs. Ely's sister, is in a critical condition. She was struck and abused by the mob.

which had been enraged by the alleged assault the negro made upon Mrs. John Barber.

Prosecuting Attorney Ortha Barr, of Allen county, informally appealed to the secretary of Gov. Willis to send state troops to this city in an effort to keep down a revival of the mob spirit.

The negro was in the Henry county jail, at Napoleon, where he was rushed late last night while the mob was en route from Lima to Ottawa to get him.

## STATE FUNDS FROM FOREST RESERVES

Gov. Boyle is in receipt of a check from the Treasury department at Washington, D. C., for \$17,597.15. This represents Nevada's apportionment, 25 per cent, of the money received by the government for leasing on grazing and timber lands on the forest reserves.

The distribution and the amount each county is entitled to is as follows: Douglas, \$75.55; Elko, \$9400.65; Esmeralda, \$111.74; Eureka, \$233.49; Humboldt, \$2000.94; Lander, \$511.72; Lyon, \$24.59; Mineral, \$1113.62; Nye, \$2336.02; White Pine, \$1172.89; and Washoe, \$108.94.

## AUGUST RECORDS HARD TO EXCEL

Last month was the coolest August since the establishment of the weather bureau, having a mean of 65.50. According to the records of U. S. Observer Legler, the hottest day occurred on the 1st, registering 90 degrees; the coldest was on the 25th, the thermometer reading 40 degrees. There were thunder and storms on the 2nd, 27th and 28th. The total precipitation of rain for 31 days was .54 of an inch, which fell during four days, 2nd, 25th, 27th and 28th. There were 22 clear days and 9 partly cloudy. The highest wind velocity was 36 miles per hour from the southeast on the 2nd.

## HEN 20 YEARS OLD LAYS EGG.

Spanish Annie Breaks All Records, Defying Her Own.

Hartford, Conn., Sept. 1.—(Daily Associated Press.)—Colonel James Blanchard, of Hartford, is quite content to let his hen, Spanish Annie, perform what is probably her last labor in this world, something beyond "all the king's horses and all the king's men," for she laid a blue brown egg.

Spanish Annie, called because she is of the black Spanish variety, hasn't laid an egg in years. However, within a year she got her name in the newspapers and her picture in many of them when she hatched out a fine brood of chickens and was hailed as the world's champion Biddy.

Colonel Blanchard, who is proud of his famous hen, has discovered from his poultry records that Spanish Annie was hatched July 4, 1887, and for years contributed generously to the Blanchard daily egg supply. Some years ago her shiny jet black feathers began turning white and her eggs were fewer. Then she lost her quick, dashing gait, and at present her feathers are a mottled gray.

Spanish Annie made no particular commotion after laying her egg, but her happy owner arranged a special feed for her.

## PEARL 5,000,000 YEARS OLD.

Found on the Seacoast and Sent to Stanford University.

Stanford University, California.—A pearl estimated to have been formed 5,000,000 years ago and to be the oldest specimen of its kind in the world was found by Stanley C. Herold, a Stanford student, six months ago. The pearl will be presented to the Stanford museum.

The pearl and the cockleshell in which it was imbedded came to Stanford in a consignment of geologic material from the coast of the state of Washington.

According to university authorities, the pearl is of little value as a gem, but the oyster in which it was found originated, they said, probably in the paleozoic period.

"We have no record," said Herold, "of pearls having been formed before the time this one was created. It retains considerable luster and when thoroughly polished will retain more, but its 5,000,000 years of existence has taken out about 50 per cent of its luster."

"At the time this pearl was made the dinosaur, mastodon and sabre toothed tiger were in existence."

## FIFTY LIVES LOST IN A HURRICANE

(By Associated Press.)

ST. THOMAS, D. W. I., Sept. 1.—Fifty lives were lost in a hurricane sweeping over British West Indies island Dominica. The wind reached a velocity of 74 miles. Two hundred houses and buildings were wrecked.

## ROBINS ACCEPT HUMAN AID.

Man Replaces Fallen Nest and Birds Occupy It.

Seattle, Wash.—"I had always understood," said Crawford E. White, the attorney, who lives at 4203 Mead street, "that birds would invariably abandon a nest which had been disturbed by human hands."

"Something that happened in my yard the other day is a distinct exception to this rule. Two robins had a nest in the branches of a cedar tree. The cross limb which held up the nest fell away and let it down on the ground."

"I thought that would be the end of that nest. But the two birds stayed near it all the next day, and finally I got the idea of rebuilding it. I took a foot ladder and fastened the nest back securely in place with some ordinary bay nailing wire."

"The robins apparently liked the rough job I made of it. For they came back and have been working together rebuilding the old nest."

## GIRLS TOO BASHFUL.

Make Inquiries Over Phone Regarding Man Wanting to Wed.

St. Paul, Minn.—"Ambitious, but bashful," is the characterization Joseph Mounts, secretary to Chief of Police John J. O'Connor, made of a St. Paul young woman after a day of telephone calls regarding Elmer Johnson, rancher of Sidney, Minn., who wrote to the chief making an offer of matrimony to a suitable St. Paul girl.

"Many girls," said Mr. Mounts, "called me asking about Johnson, but none would give me her name. I think the girls are passing up a good thing, because I think the man is on the level."

Johnson has 320 acres of fertile Montana land, two miles from a railroad, and says he is "well fixed."

"Some of the girls talked real true," added Mr. Mounts, "and if Johnson had heard them maybe he would have liked to look them over. It's too bad they are so bashful."

## FINDS DIAMOND IN TOBACCO.

Railroad Engineer Discovers Gem in Tin of the Weed.

St. Mary's, Pa.—Patrick Febley, an engineer on the Pennsylvania railroad, stationed here, considers himself a very lucky individual.

A few days ago he bought a ten cent tin of tobacco. While replenishing his pipe he was surprised to see a ring imbedded in the weed, and examination proved it to contain a setting which looked suspiciously like a diamond. He took his find to a jeweler, who appraised the stone to be worth at least \$50.

## With Choir, No Gift.

Topeka, Kan.—Property held for the Church of Christ in this city will revert to the original owners should there come into existence within the body any choir or other organization, according to the terms of the deed by which it was conveyed for church purposes, and which has just been filed for record.

## WILL NOT DISCHARGE ANY MORE GUARDSMEN

(By Associated Press.)

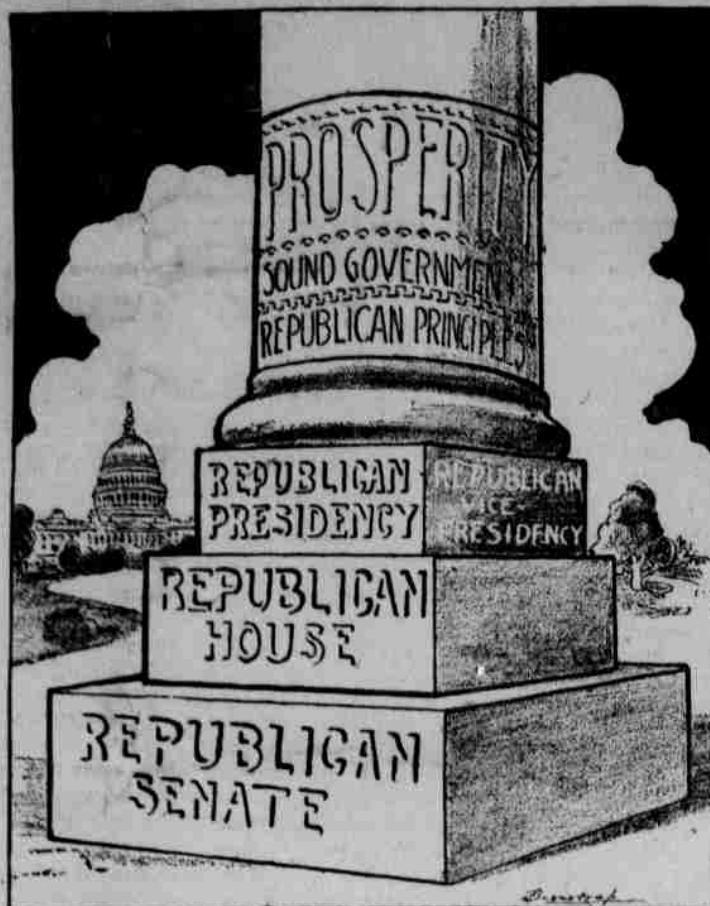

BROWNSVILLE, Texas, Sept. 1.—No more applications for the discharge of college students serving in the national guard on the border or guardsmen having dependent relatives will be considered.

## EMBARGO LIFTED ON PERISHABLE COMMODITIES

(By Associated Press.)

TOPEKA, Kan., Sept. 1.—The embargo on perishables was lifted by the Santa Fe today, according to an announcement at the general offices. The road will accept freight, paid in advance, at owners' risk. Live stock shipments are excepted.

## SOLID FOUNDATION.

—Bronstrup in San Francisco Chronicle.

## AXE AND KNIFE USED IN AFFRAY

John Terkla was stabbed yesterday afternoon by B. Visuevac in the store of Chiatovich & Terkla, on Main street. Terkla was removed to the hospital and his assailant placed under arrest by Chief of Police Evans.

Visuevac had been drinking heavily all morning and was in an ugly temper when he entered the store. Visuevac began nibbling apples, throwing the remains back in the box. Terkla warned him to stop, remarking that he would call Bill Evans. He went to the telephone and was speaking to the chief of police when the offender pulled a knife and rushed at him. Terkla grabbed an axe and hit Visuevac over the head.

Visuevac then struck with his knife and succeeded in driving the blade in the grocer's left thigh. Evans soon arrived, and placed the man under arrest, while Terkla was sent to the hospital.

An examination of the incision disclosed that the blade had been imbedded and an operation was necessary last night. The patient is resting easily and will be out by the end of next week.

## PROMINENT PHYSICIAN TOURING THE STATE

Dr. Francis Knorp, chief surgeon of St. Joseph's hospital and professor in the College of Physicians and Surgeons of San Francisco, arrived this morning from the coast. Dr. Knorp is on a tour of observation, visiting all the large towns in Nevada and inspecting the mines of Virginia City, Goldfield and Tonopah before leaving for the east, where he will witness the work of famous physicians who are leaders in the advancement of medical science.

## COME OF BAD STOCK

A story is going the rounds that Harold and Lynn Lovelace, the two Idaho boys who murdered Prof. F. T. Hamill, are the sons of one Paul Lovelace, who was an inmate of the Nevada penitentiary and left that institution about four years ago. Lovelace was a bad egg and when at the prison was regarded as an incorrigible. If there is anything in heredity there is reason for the murderous instincts that have appeared in the Lovelace boys.—Carson Appeal.

## WELL DEFINED VEIN AT LONE MOUNTAIN

C. Gast, formerly a locomotive engineer on the T. & O. railroad and now a resident of Berkeley, came in from Lone Mountain this morning. He is looking after the interests of the Golden West Mining company, which resumed work five weeks ago after an idleness of a year. The property adjoins the Nevada Alpine and has an excellent showing with what Mr. Gast claims is the first well defined quartz vein opened in that district. The vein runs between 4 and 18 inches wide with spotted values ranging as high as 300 ounces of black metal with a green and yellow chloride. The next step will be to sink a winze on the vein to a depth of 35 feet and then drift both ways on the vein.

Mr. Gast says he never felt so positive that the company was going to make a mine as he does now and he will push work as rapidly as possible. He says the Nevada Alpine leasers are doing well, having sent out three shipments of high grade with prospect of making another before long.

## GOLDFIELD ODD FELLOWS TREAT TONOPAH BRETHREN

The Goldfield lodge, I. O. O. F., entertained over 25 members of Belmont lodge last night in their hall at Goldfield. All the members who motored over from Tonopah report that they had the time of their lives and only wish that they will be in a position to return the compliment when the time comes. Those in the party were: James Currie, Martin Newell, Carl Flembing, John Gallagher, T. M. Pearce, L. S. Ross, E. S. Norris, L. E. Norris, L. D. Warner, Pete Beko, Andy Mihovich, G. F. Laws, Chas. M. Hooten, W. A. Murphy, M. G. Smith, J. A. Peterson, W. H. Thompson, Ed. Malquest, James Dakovich, M. Budenovich, J. A. Senlock, K. W. Pearce and Alva Ritchie.

## SMALL BLAZE CAUSED BY BOYS WITH MATCHES

The Fire department was called out at 12:45 this afternoon for a slight blaze at E. D. Mills' residence on Prospect street. The fire was caused by boys playing with matches. Damage small.

Our tire repairs are guaranteed to outwear the tire. Lundee Bros.

## PERSONAL

D. J. FITZGERALD left today for Reno.

GEORGE GRAHAM and wife arrived today from Sodaville.

THOMAS J. LYNCH, U. S. revenue collector, left this morning for Goldfield.

DR. E. R. GRIGSBY departed this morning for San Francisco and southern California.

MR. and MRS. IVY BRAY returned on No. 24 today after an extended visit to Virginia City.

MRS. C. H. PEART, Mary Naylor Brown, Shannon and Eleanor Brown, were arrivals today from Holton, Kan.

MISS SARA OBERSTEG passed through here this morning from Eureka on her way to teach school at Caliente.

ETHEL and ROSE TGOHY, nieces of Dan Dougherty, departed this morning to continue their studies in Grass Valley.

MRS. JAMES J. McQUILLAN and son, Roy, returned this morning after an extended trip to San Francisco and coast points.

MISS A. E. HEMPHILL and Miss Grace Thane, trained nurses at the Mine Operators' hospital, departed on No. 23 today for San Francisco.

MISS HAZEL DOUGHERTY returned on the auto stage to Goldfield this morning after visiting her brother, Dan Dougherty, for the past week.

MISS LYNETT and CLAIRE GRIMES, little daughters of Mrs. Puddy Grimes, arrived today from Nevada City, where they had been summering.

MRS. F. E. THOMPSON returned home today from San Jose, where she has been for several weeks.

## MANY CHILDREN ENJOY SUNDAY SCHOOL PICNIC

Rev. Ralph W. Bayless, pastor of the Presbyterian church, this afternoon engineered one of the finest picnics for kiddies ever seen in Tonopah. At 1:30 o'clock, 150 children left the church for the ball grounds, where they made their first stop, establishing a camp and rest room. From there the young boys and girls made for the surrounding hilltops and spent the remainder of the afternoon climbing and playing games. A gorgeous dinner, with an ice cream dessert, will be served at 5 o'clock. The day is to be ended by an enormous bonfire on the ball grounds.

## COSMOPOLITE MINE

Messrs. Skelton and Grant, who with others of Tonopah, recently took an option on the Cosmopolite mine, arrived in Groveland last Friday evening to take charge of the property.

Mr. Skelton has been busy during the week securing new timber and materials to use in repairing the underworkings, which are not up to standard, while Mr. Grant has kept busy fixing up around the property. It will be two or three weeks before any actual development work will be started.

Almost an entirely new equipment will be put on the property to work low grade, as there are enormous quantities of good low grade ore already blocked out. An 80 per cent savings or better is planned with the new equipment.—Tuolumne Prospector.
